We believe • We strive • We achieve

THE ADMINISTRATION OF MEDICATION IN SCHOOL POLICY

2023-2024

The Board of Governors and staff of Saint Fanchea's College wish to ensure that pupils with medication needs receive appropriate care and support at school. Most children with medication needs are able to attend school regularly and, with some support from the school, can take part in the majority of school activities.

Legal Duty and Indemnity:

The Principal, Assistant Principal and teachers are not contractually required to administer medication to students. This is a voluntary role. If a member of staff administers medication to a student, or undertakes a medical procedure to support a student and, as a result, expenses, liability, loss, claim or proceedings arise, the College will indemnify the member of staff provided the member of staff follows the procedures set out in this policy and the procedures outlined in the student's Individual Healthcare Plan (Form AM1), and/or written permission from parents.

Please note that parents should keep their children at home if acutely unwell or infectious.

Parents are responsible for providing the Principal with comprehensive information regarding the pupil's condition and medication. Prescription and Non-prescription medication will not be accepted in school without complete written and signed instructions from the parent. (Appendix 1 Forms AM1, AM2, AM3, AM4)

Only the daily quantity of medication should be supplied to the school unless it has been pre- arranged with the Principal that an emergency supply is kept in the school.

Where the pupil travels on school transport with an escort, parents should ensure the escort has written instructions relating to any medication sent with the pupil, including medication for administration during respite care.

Each item of medication must be delivered to the Principal or Authorised Person, in normal circumstances by the parent, in a secure and labelled container as originally dispensed. Each item of medication must be clearly labelled with the following information:

Pupil's Name.
Name of medication.
Dosage.
Frequency of administration.
Date of dispensing.
Storage requirements (if important).
Expiry date.

The school will not accept items of medication in unlabelled containers.

Medication will be kept in a secure place, out of the reach of pupils.

Unless otherwise indicated all medication to be administered in school will be kept in a locked cabinet.

The school will keep records, which they will have available for parents.

If children refuse to take medicines, <u>staff will not force</u> them to do so, and will inform the parents of the refusal, as a matter of urgency, on the same day. If a refusal to take medicines results in an emergency, the school's emergency procedures will be followed.

It is the responsibility of parents to notify the school in writing if the pupil's need for medication has ceased.

It is the parents' responsibility to renew the medication when supplies are running low and to ensure that the medication supplied is within its expiry date.

The school will not make changes to dosages on parental instructions.

School staff will not dispose of medicines. Medicines, which are in use and in date, should be collected by the parent at the end of each term.

Date expired medicines or those no longer required for treatment will be returned immediately to the parent for transfer to a community pharmacist for safe disposal.

For each pupil with long term or complex medication needs, the Principal, will ensure that an Individual Healthcare Plan (AM1) and Protocol is drawn up, in conjunction with the appropriate health professionals.

Pupils with asthma will have an Asthma school record card held in school which parents will be asked to complete.

Where it is appropriate to do so, pupils will be encouraged to administer their own medication, if necessary under staff supervision. Parents will be asked to confirm in writing if they wish their child to carry their medication with them in school. (AM2/AM3/AM4)

UNDER NO CIRCUMSTANCES SHOULD ONE PUPIL GIVE MEDICATION TO ANOTHER

Staff who volunteer to assist in the administration of medication will receive appropriate training/guidance through arrangements made with the School Health Service.

The school will make every effort to continue the administration of medication to a pupil whilst on trips away from the school premises, even if additional arrangements might be required. However, there may be occasions when it may not be possible to include a pupil on a school trip if appropriate supervision cannot be guaranteed.

All staff will be made aware of the procedures to be followed in the event of an emergency.
